PROFESSIONAL SUMMARY

Full Stack Developer skilled in MERN Stack, REST APIs, MongoDB, SQL, JWT Authentication, and scalable application development with hands-on experience in building production-ready web applications, backend systems, and AI-integrated solutions using modern development practices.

EDUCATION

G.L.A. University

Bachelor of Technology in Computer Science

Mathura, India

Aug 2022 – May 2026

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Java, Python, SQL

Frontend: HTML5, CSS3, Tailwind CSS, React.js

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Middleware, MVC Architecture

Databases: MongoDB, MySQL, PostgreSQL, Query Optimization

Tools & Platforms: Git, GitHub, Postman, VS Code, OpenAI API, Cloudinary

EXPERIENCE

W3Elites Pvt. Ltd.

MERN Stack + GenAI Intern

New Delhi, India

June 2024 – July 2024

- Completed industrial training on MERN Stack and Generative AI Integration following industry-standard development practices.
- Developed scalable frontend and backend functionalities using React.js, Node.js, Express.js, and MongoDB.
- Designed RESTful APIs, implemented CRUD operations, and optimized database workflows for efficient data handling.
- Worked with Scrum methodology and collaborative coding practices to deliver project modules effectively.
- Built and submitted a capstone project integrating full-stack development concepts with AI-powered functionalities.

PROJECTS

Social Media Web Application

[Project Link](#)

- Built a scalable full-stack social media platform using React.js, Node.js, Express.js, and MongoDB.
- Implemented JWT-based authentication and role-based authorization for secure API access.
- Developed RESTful APIs for user management, posts, comments, and social interactions.
- Optimized MongoDB queries and backend architecture to improve application performance and scalability.
- Integrated OpenAI API chatbot functionality to enhance user engagement and platform interactivity.

Recipe Manager Application

[Live Link](#)

- Developed a full-stack recipe management platform using Node.js, Express.js, MongoDB, and JavaScript.
- Built secure CRUD APIs with structured backend workflows and input validation for efficient data handling.
- Integrated Cloudinary for cloud-based image upload, storage, and optimized media management.
- Implemented role-based access control with separate Admin and User dashboards using optimized MongoDB database models.

ACHIEVEMENTS

- Solved 150+ DSA problems on LeetCode, HackerRank, and Codeforces demonstrating strong problem-solving skills.
- Participated in Smart India Hackathon for two consecutive years developing innovative technical solutions.
- Built multiple backend and full-stack projects showcasing practical software development experience.

CERTIFICATIONS

- Introduction to Data Science — Cisco Networking Academy
- Data Analytics Job Simulation — Deloitte Forage
- Java Programming — HackerRank
